

Adrián Moreno Peña

Computer Engineer

Hello, nice to meet you!

I am **Adrián**, an Spanish computer engineer, and I also hold a Master's Degree in Project Management. I have a work experience of 10+ years, where 4 of them were working in my own development studio, Zadia Software, where I was **co-founder and lead developer**. Looking for a personal re-invention, I made the choice to move to Amsterdam about 3 years ago, and I couldn't be happier about the step.

Who am I, you might wonder? I'm a very easy going, fast-learner, curious and natural leader. I do what I love, and I love what I do.

My profile is a mix of **technical and managerial experience**, but always related to technological projects. I bring business and product vision to tech teams, partly thanks to having started and developed a company. I am a fast learner, with strong motivation and sense of responsibility with myself, my team and clients (or peers), and people like my positive and easy going attitude.

My day to day tasks have included the whole variety of duties that are related to software development projects: from the concept definition to the technical analysis, to the architecture definition of the systems, to the execution of the designs by programming, and further testing and quality assurance, and optimization of the software product via monitoring of KPIs and user behaviours. In the end, anything that entails **delivering useful software**.

In the technical side, I'm a "specialized generalist", always working between different expertises, such as mobile and web development, devops, team leading... This has involved a variety of languages and frameworks in the web-side, both in the backend - with Drupal, Wordpress, Symfony or Zend), Java/J2EE and serverless architectures (with node.js) - and in the frontend - from the concept prototype to the implementation of the design with responsive CSS frameworks (Foundation, Bootstrap, Material Design), and usage of JS frameworks (such as AngularJS, Phonegap).

In the mobile field I have extensive experience with both native Android and iOS SDKs and platforms, with many published apps. I also have experience with hybrid frameworks like Phonegap or Titanium Appcelerator.

I hope this information encourages you to talk with me, and hear back from you soon!

Adrián Moreno Peña

Adrián Moreno Peña

Computer Engineer

Work

2017 - now

Tech Lead

Emakina.nl. Amsterdam, Netherlands.

Part of a multidisciplinary team, defining large scale solutions for the company customers - always with the end-user in focus, and aligning with design and business analysis teams. All done in a completely agile manner, involving the client in all the phases.

Skills: team leading, coaching, agile development, scrum, e-commerce, design sprints, high scalability

2015 - 17

CTO (Chief of the Technology Office)

Pocket Media. Amsterdam, Netherlands.

Coordinating the technology team of a mobile advertising agency, as part of the management team, executing mobile and web (high scalability) development projects. Defined the products roadmap, milestones, and plans to achieve the objectives, as long as the talent acquisition.

Skills: advertising, product management, roadmap, tech & business alignment, strategy, mobile, scrum master

2015

Senior Mobile Applications Developer

The Mobile Company. Amsterdam, Netherlands.

Developed innovative new apps (Bluetooth BLE beacons technology) and maintained apps with a large codebase and numerous users, among top Dutch apps. Helped tackling complex problems to get to solutions.

Skills: Native mobile programming (Java, Objective-C, Swift), agile programming, Scrum..

2011-15

Co-founder & Technical lead

Zadia Software. Santiago de Compostela, Spain.

Co-Founded a bootstrapped development studio, leading and coordinating a team of 5 engineers while doubling the revenue every year, providing IT services focused on web and mobile development.

Skills: Project Management, Sales, Team leading, Recruiting, Social Media, Mobile Programming (Android, iOS, Mobile web, Phonegap, Appcelerator), Web Development (Drupal, Wordpress, Play! Framework, PHP - Symfony, Codeigniter), UX/UI Prototyping..

2011

Programmer Analyst

Coremain. Santiago de Compostela, Spain.

Technical lead of a team for projects related with banking sector, intranet applications for big amounts of data.

Skills: J2EE, Spring, Oracle, Oracle Application Server, Javascript, jQuery, CSS...

2007-11

Programmer Analyst

Bahía Software. Santiago de Compostela, Spain.

Took part in medium to big projects for the public health sector, I&D proposals and projects, and modernization of the development tools use by the team.

Skills: J2EE, eHealth, Struts, JCAPS, SOA, C#, C++, SQL, Informix, Javascript/HTML/CSS, Drupal, Wordpress...

Adrián Moreno Peña

Computer Engineer

Education

2008-10

Master in Projects Management

University of Santiago de Compostela, Spain

Project management and lead based on PMBOK: Scope, Time Management, Costs, Quality, Risks, Human Resources, Communications, Acquisitions, Integration.

Final Master Project: Development and maintenance of a corporate web portal

Grade: 7.0 (Project), 7.0 (Studies)

2004-07

Technical Engineering in Computer Systems

University of Santiago de Compostela, Spain

Specializations: Internet and Networking.

Acquired knowledge and skills: Software analysis, software design, web design (HTML, CSS, Javascript), Internet Application Design (J2EE, EJB, Struts, Spring, AJAX, XML), Programming (C, Java, PHP, SQL), Software engineering, Laws (applied to IT), System and network administration (Linux/UNIC, Windows), Distributed applications, web services programming, Statistics, Algebra, Discreet Maths, Calculus.

Final Degree Project: Design of a portal for the management of a University Department

Grade: 8.9 (Project), 7.0 (Studies)

Courses

• Design Fundamentals

Typography
Colour
Composition

• Portal Development with Liferay 6

• Applications Development with JCAPS framework from SUN

• Microsoft Sharepoint based applications development
